

From our regular correspondent.

Washington, April 11th.
On Monday last the Supreme Court handed down its decision in the Income Tax cases. It was about as had been estimated by the press it would be and so course was not so much of a surprise. As a matter of fact, the tax is sustained. Of course certain parts have been rejected as unconstitutional, but as a whole it will stand. The tax on rents and interest on all kinds of bonds is declared invalid. The decision caused no particular flurry on the stock market such as was expected by the brokers here and up to this time the quotations have varied but little.

The Bimetall League has just succeeded in unearthing some facts which go to show that the old parties are greatly alarmed over the prospects in the West and South. Only a short time ago, Secretary of Agriculture Morton received a letter from Mr. J. R. Buchanan of the Fremont, Elkhorn & Missouri Valley Railroad whose office is in Omaha, stating that some answer ought to be at once made by the bankers, to the little book known as Coin's Financial School, issued by W. H. Harvey of Chicago. He went on in the letter to state that the book was receiving a most enormous sale in his portion of the country; that he had noticed it was being read extensively on the trains and that numbers were purchased by silver men and distributed gratuitously. He reported that an Omaha banker came to him with the book, said he had read it carefully, and the argument was so powerful that it had actually influenced and convinced him against his will.

Senator Stewart will leave for the West in a few days. Mr. Sibley will meet him in Chicago upon his arrival there and together they will proceed to Denver to commence a tour of the West. It is probable that they will make speeches at all of the important towns in the states west of the Mississippi. They had intended to make this trip during the last of March but business matters would not permit as each had a number of things demanding attention immediately after adjournment of Congress.

Judge Buckley C. Kilgore, the Congressman whom the President lately favored with an appointment upon the bench in Oklahoma, is a horseback rider of no mean ability, an accomplishment he picked up while a boy on the plains of Texas. It is said he can ride bareback as good as any cowboy that ever straddled a broncho.

A Washington heiress is soon to marry Lord Carson of England and thus another bag of gold will go over the deep, blue Atlantic. This international matrimonial business is getting to be a big deal and it won't take many more years of it, to convince the American people that the laws that permit a man's making a couple hundred millions or more for his daughters to distribute over Europe will have to be changed. This much can be backed upon, that unless both the Democrat and Republican parties put forward a true, blue silver man and one that HAS and will face the music, they will with one accord demand to know, after the next election, where they are at.

NEIGHBORHOOD NEWS.

Elmwood Pickups.
Slightly windy. It has been windy for several days past.

A good rain Monday. Everything is growing fine. The black ground in this country begins to look green again, and the groves are white with plum blossoms.

The snow storm some days ago drove a great many cattle from this creek south, and the owners are having quite a time gathering them.

Lon Hasked rides in a two horse buggy now a days.

Henry Kile has found all his cattle that drifted with the storm.

Perry Chilcott, James Hare, Wenden, Bryson and Baker of Willow Creek, and some other parties went south on a round-up several days ago and haven't returned at this writing.

Perry Chilcott had two horses badly burned in the prairie fire a few days ago. They will both probably die.

Blosser is still hunting outfit.

Garden truck is through the ground and looking nice.

W. Hibbs received his pension papers Saturday. We are glad to hear it for he serves it if any soldier does in this country, and we think they all deserve a pension.

John Hibbs is buying branches for Danielson's summer.

M. K. Mendosa is still sowing alfalfa. Go on with the good work M. K.

Tot Campbell only lost one sheep in the snow storm and it died after the storm was over.

Notes from Nye.

Our lovely spring weather "hides out" when these birds come down from the northwest.

Gardens are nearly all up and look nice. The peach trees were lovely a few days ago, but the wind Monday blew most of the blossoms off.

Frank Bogue, who was so badly hurt by his horse falling, has resumed work.

E. Gorman, of Meade, has been stopping on the river for a day or two en-route to Beaver.

R. P. Bruen, who accompanied the remains of his wife to Springfield, Ill., is again at home.

The storm of the 5th, and 5th, got a good many old eggs on the river.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure the proper functioning of the entire nervous system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut below, the nerve force descends from the base of the brain and terminates in the heart, lungs and stomach. While the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irregularity or exhaustion, the nerve force which it supplies is lessened, and the body suffers accordingly. Physicians generally fail to recognize the importance of this fact, and treat the organ instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., of St. Louis, Mo., has given the greatest impetus to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the basis of the latest scientific discoveries, and is the only medicine that cures the various diseases of the nervous system, and restores the vitality of the brain and nerves. It is the only medicine that cures the various diseases of the nervous system, and restores the vitality of the brain and nerves. It is the only medicine that cures the various diseases of the nervous system, and restores the vitality of the brain and nerves.
